Experience

May 2022 -
present

FULL STACK DEVELOPER (In training)SEPA program Njenga School

SEPA is an accelerator is a project-based accelerator program for developers who are starting out in their career. At the end of each of the 5 sprints developers have to complete a project.

- Perform coding, debugging and unit testing in support of my projects.
- Designed, developed and deployed scalable web-based user interfaces and components using HTML, CSS, Bootstrap, JS
- Applied current programming standards and methodologies to all relevant projects and activities
- Worked alongside web developers and instructors to ensure the right look and vital features were achieved

Key Achievements

1. Crated an e-commerce website which can enable a customer to purchase products and update the stock available.
2. Developed a Project Management Web Application which enables customers manage their projects and finish in the expected time.
